

**REMARKS:**

Claims 10 - 17 are in the case and presented for consideration.

The undersigned thanks the examiner for the helpful telephone interview of June 3, 2005 during which tentative agreement was reached on language to improve claims 10 and, hopefully, place it in condition for allowance.

Turning to the action specifically, the specification has been amended to utilize the title suggested by the examiner.

Attached to this amendment, please find replacement sheets of formal drawings containing all of the figures which have been amended to show cross-hatching for plastic which is consistent with the specification and as requested by the examiner. It is noted that the amendment to the drawings is not meant to limit the claims to any particular material since such limitation does not appear in the claims and is not intended as a limitation to the claims.

Applicants gratefully acknowledge the examiner's indication of allowability of claims 10-17 as amended to overcome the formal objections and by this amendment, thus, the application and claims are believed to be in condition for allowance and further favorable action is respectfully amended.

Respectfully submitted,

Peter C. Michalos  
Reg. No. 28,643  
Attorney for Applicants

**IN THE DRAWINGS:**

Replace the two sheets of drawings originally filed with the attached sheets containing Figs. 1-3 and labeled "Replacement Sheets" and also amended to identify plastic as the material of some of the parts to be consistent with the specification, plastic being shown as alternating thick and thin lines.
